ASSIGNMENT

WHEREAS, Dallas L. Clouatre of Santa Monica, California and James M. Dunn of Littleton, Colorado, Assignors, have invented new and useful METHODS AND PHARMACEUTICAL PREPARATIONS FOR NORMALIZING BLOOD PRESSURE WITH (-)-HYDROXYCITRIC ACID, for which an application for United States Letters Patent was executed by them; and

WHEREAS, Assignors believe themselves to be the original, first and sole inventors of the invention disclosed and claimed in the application for Letters Patent filed on February 13, 2001 in the United States Patent and Trademark Office and assigned Serial No. 09/781,491; and

WHEREAS, GLYCON TECHNOLOGIES GROUP, L.L.C., a Nevada corporation, Assignee, desires to acquire by formal, recordable assignment the entire right, title and interest in and to the invention, the application, and any Letters Patent that might be granted for the invention in the United States and throughout the world;

NOW, THEREFORE, in consideration of the sum of Ten Dollars (\$10.00) and of other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignors hereby sell, assign and transfer to Assignee, the entire right, title and interest in and to the invention, the application, and any Letters Patent that might be granted for the invention in the United States and throughout the world, including the right to file foreign applications directly in the name of Assignee and to claim for any such foreign applications any priority rights to which such applications are entitled under international conventions, treaties or otherwise.

Further, Assignors agree that, upon request and without further compensation, but at no expense to Assignors, they and their legal representatives and assigns will perform all lawful acts, including the execution of papers and the giving of testimony, that might be necessary or desirable for obtaining, sustaining, reissuing or enforcing Letters Patent in the United States and throughout the world for the invention, and for perfecting, recording or maintaining the title of Assignee, its successors and assigns, to the invention, the application, and any Letters Patent granted for the invention in the United States and throughout the world.

Assignors represent and warrant that they have not granted and will not grant to others any rights inconsistent with the rights granted by this Assignment. Assignors further represent and
